Custom-made controllers

Professional kitchen hood controller

Project description

Extractor hoods for use in professional kitchens are used in hospitals, restaurants, hotels, etc.. The majority of their ventilation appliances with E.D.&A. controllers are used in the Middle East. This company wanted to purchase a controller as a total solution.

E.D.&A. has completely integrated the controller into a cabinet. The manufacturer only has to build that box into its kitchen hoods. Depending on the circumstances, the customer can opt for a stainless steel or plastic cabinet.

Customer

Worldwide operating company specialized in the production of cooker hoods for professional kitchens.

Characteristics

- 4 digital contact inputs, 2 digital relay outputs, 2 current transformers
- power supply 24 V AC
- 4 LED inputs and 2 LED outputs
- 1 x 16 LCD display + keyboard with 4 keys
